SHARED GOVERNANCE, COLLABORATION, AND STUDENT ACHIEVEMENT

Our school district is a complex organization, which can succeed only if we enlist the energy, creativity, and effort of many people to accomplish our goals. [The Salt Lake City School District Board of Education](#) believes that ideal conditions for student learning can be realized when [shared governance](#) is thoughtfully used to support student achievement.

Shared governance is the Salt Lake City School District’s collaborative process for making decisions at school [sites](#) and in district [departments](#). Shared governance requires each of us to work together with respect, trust, good faith effort, and purpose in pursuit of our mission: Student Learning.

The board retains overall legal responsibility for governing the district but may delegate decisions, subject to periodic review and appropriate accountability.

Although shared governance facilitates a broad range of decisions, it does operate within the following limits:

- law;
- board of education policies;
- negotiated agreements;
- budget; and
- ethics.

A Code of Conduct for all stakeholders is being developed by the board to further describe the ethical and professional behavior necessary for meaningful collaborative effort focused on student achievement.

Questions about the shared governance process should be referred to the office of the [superintendent](#). Board policies [C-1, Parent and Community Involvement](#), and [G-18, Complaint Resolution Process](#), which appear in the Appendix to this Shared Governance Guide, may also be helpful in understanding shared governance.

All policies discussed in the guide can be found on the school district’s website:

<http://www.slcschools.org/policies/>

PRINCIPLES OF SHARED GOVERNANCE

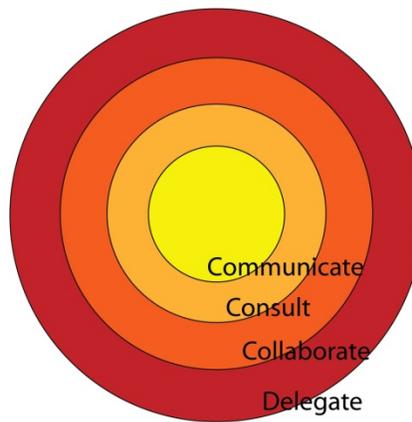

[Shared governance](#) is an effective method for making decisions. It is most effective when all participants have a thorough understanding of its structure and the following basic principles:

- delegation;
- openness, trust, and equity;
- decision-making;
- review and adjudication;
- accountability; and
- dialogue and communication.

Delegation

The [Salt Lake City School District Board of Education](#) has the exclusive right and responsibility to determine the goals and direction of the schools and to use all its resources to achieve such goals, within the bounds of state and federal law and rules of the [Utah State Board of Education](#). Board decisions should accurately reflect the public's interests. Statutes of the state of Utah require all local school boards to make decisions by majority vote; thus the obligation to seek [consensus](#) under shared governance does not bind the board in its decision-making.

The board delegates to school [sites](#) and [departments](#) the right to make some decisions, using the shared governance process. [Site-based decisions](#) must conform to legal requirements, state and federal rules and regulations, the district's [Student Achievement Plan](#), policies, procedures, guidelines, and contractual obligations, including negotiated employee agreements.

Decision Circles

The above Decision Circles show various levels of decision making. Where does the authority for a given decision reside: federal law, state law, school board, [superintendent](#), department, principal, teacher, parent, student, community council, or other?

- **Communicate:** Laws, policies, regulations, or decisions made by any group or individual need to be communicated to the appropriate constituents.
- **Consult:** Although the final decision may rest with other groups or individuals, some decisions need input from others before they are made. It is important for all decision makers to gather information that will be helpful in making any given decision.
- **Collaborate:** Involvement of stakeholders in making decisions using the principles of Shared Governance, i.e., School Community Councils and School Improvement Councils.
- **Delegate:** Some issues or topics may be given by the primary decision maker to another individual or group to make a decision or recommendation.

Openness, Trust, and Equity

Under shared governance, openness, trust, and equity are paramount. Only through these principles can a group reach consensus and ensure cooperation.

Openness can exist only in an atmosphere of safety in which members of a group are able to speak their minds without fear of coercion, ridicule, or retribution. Openness requires that each member be reflective and willing to work for the betterment of the community in a spirit of good faith.

Trust begins when openness exists. It is further developed through the willingness of all members to make and keep commitments and to actively support final decisions.

Equity exists when the common good of the community is the goal of each council or committee member. Special interests must be noted; however, they alone should not determine the final decision. All points of view must be considered.

Accountability

When a decision is made through shared governance, all stakeholders are expected to be accountable for its success. A decision is final and ongoing until it is reviewed and changed through the shared governance process. In general, shared governance decisions and their outcomes should be reviewed at least annually. As with trust, accountability is enhanced when all members actively support final decisions.

Dialogue and Communication

Shared governance involves discussing issues for which it can be difficult to find consensus. A fundamental component of civility and respect is personal responsibility. A pending decision demands that the decision makers communicate with all stakeholders. A focus on issues and not on people should be the guiding principle.

School committees, planning groups, and programs can be coordinated through the SIC and/or the SCC. Where appropriate, such committees may be [ad hoc](#) to either council. Recommendations from any groups, committee, or programs should be weighed carefully through the shared governance process, before being implemented, to determine their impact on all stakeholders.

SCHOOL COMMUNITY COUNCIL DECISIONS AND RESPONSIBILITIES

A [School Community Council \(SCC\)](#) is established in each school to provide a cooperative means of improving the educational programs and conditions within that school. Its membership should represent school employees and parents or guardians of students. Ideas for discussion topics may be generated by any individual or group in the school community.

Decisions and Responsibilities

Decisions and responsibilities allocated to the SCC by Utah state statute include the following:

- Develop a [School Improvement Plan \(SIP\)](#).
- Develop the [School LAND Trust Plan](#).
- Assist in the development and implementation of a [school professional development plan](#).
- Advise and make recommendations to school and school district administrators and the local school board regarding the school and its programs, school district programs, and other issues relating to the community environment for students.
- Develop a [reading achievement plan](#). (Note: State law requires only that elementary schools develop such a plan. The Salt Lake City School District requires that all School Improvement Plans contain a literacy component.)
- Assist with the implementation of [educational technology filters and safe technology use instruction](#) for students and parents.

To carry out these responsibilities, members of an SCC must also plan to accomplish the following tasks (some may be delegated with results approved by the council):

- Identify the school's most critical academic needs and recommend courses of action to meet those needs.
- Review the [school budgets](#), federal and state accountability data, and other information provided by the principal, to develop a School Improvement Plan designed to produce a measurable increase in student achievement.
- Describe how the school intends to enhance or improve academic achievement. Include all financial resources available to the school: School LAND Trust Program monies (received under section 53A-16-101.5 of the Utah Code), federal, state, local, and private grants.
- Develop a list of programs, practices, materials, or equipment the school will need to implement its improvement plan.
- See that local reporting requirements for performance and accountability are reflected in the School Improvement Plan.

School Improvement Plans must:

- focus on the school's most critical academic needs;
- relate to relevant "[essentials of a learning community](#)" as described in the district's [Student Achievement Plan](#);
- maintain student privacy, both in the plan itself and in the process of its development; and
- be presented to and approved annually by the school board.

School Improvement Plans may:

- include a variety of actions to improve academic achievement;
- address aspects of community environment for students other than academic achievement; and
- involve a multiyear program or effort.

In the Salt Lake City School District SCCs have the following additional responsibilities:

- Provide ongoing support for the plan and monitor its implementation.
- Review the school's [Emergency Preparedness Plan](#) annually. (See [Board Policy G-2, Emergency Preparedness](#).)
- While state law does not require the SCC to develop and implement a [child access routing plan](#), the Salt Lake City School District recommends the SCC be involved in the development of the plan.
- Oversee the evaluation and implementation of the district wellness policy at the school [site](#). (See [Board Policy G-3, Wellness](#).)
- Approve student overnight trips pursuant to board policy. (See [Board Policy I-19 AP, Overnight/Extended Trips](#).)
- Approve fundraising activities involving students, in advance, as described in board policy [I-17, Student Fundraising Activities](#).
- Work collaboratively on school discipline, attendance, and citizenship policies including site-based plans to deal with student harassment and bullying. (See the following board policies and associated procedures): [S-3 Student Discipline](#); [S-4, Student Attendance and Exemption from School](#); and [G-19, Non-Discrimination and Anti-Harassment for Students and Employees](#).)
- Determine and facilitate discussion of site-based uniform or dress codes pursuant to board policy and state law. (See [Board Policy S-5, Dress and Grooming](#).)
- Evaluate the school and community efforts in [shared governance](#) after receiving SCC survey results and making recommendations to school and/or district [administration](#).
- Recommend a school calendar from among the choices approved by the district's calendar committee.
- Recommend calendar variances within parameters set by the board.
- Assist with grant applications and business partnerships if the council or its members choose to do so.
- Review and discuss any issues that involve long term contractual obligations for the school, such as the proposed installation of a cell phone tower, new construction proposals, and potential lease opportunities with third parties, etc. Documentation of these discussions and the outcome of such discussions (e.g. consensus reached, results of vote, general feedback) must be kept for the purpose of informing the board of the SCC's position on these issues.

Composition and Selection of Members

Each council consists of school employee members and parent or guardian members. (See Utah Code §53A-1a-108.)

Each SCC for a high school should have at least six parent or guardian members and four school employee members, including the principal; and each SCC for a school other than a high school should have at least four parent or guardian members and two employee members, including the principal.

A school community council may determine the size of the school community council by a majority vote of a quorum of the school community council provided that:

- the membership includes two or more parent or guardian members than the number of school employee members; and
- there are at least two school employee members on the school community council.

The number of parent or guardian members of a school community council who are not educators employed by the school district shall exceed the number of parent or guardian members who are educators employed by the school district.

Any member elected or appointed to a School Community Council serves a two-year term. The Salt Lake City School District prefers that the terms of all members begin on July 1 to facilitate consistent communication and training. State law allows flexibility in the beginning date of council members' terms. The principal should notify the [School Leadership Support Team](#) if the council agrees on an alternative date.

The ballot and voting process is required only in the event of a school community council contested race. In contested races, elections must follow procedures required by law:

- Each school shall establish a timeline for the election of parent or legal guardian members of a school community council.
- The election shall be held near the beginning of the school year or held in the spring and completed before the last week of school.
- The timing of the election must remain the same for at least four years.
- Notice must be given at least 10 days in advance of elections.
- The principal or principal's designee must oversee the elections.
- Elections must be by secret ballot deposited in a secure ballot box.
- Elections may be conducted by electronic ballot.
- Ballots and the results of each election shall be maintained for three years.
- If there is not a contested race, the school need not hold an election.
- There are no term limits for parents/guardians, but they must have a child attending the school during each two-year term.
- Terms are to be staggered so that approximately half of the council is up for election each year.
- The School Community Council may determine the size of the council by a majority vote of a quorum.

Each school employee member, except the principal, must be elected by a majority vote of the school employees in a publicized election. The principal serves as an ex officio member with full voting privileges.

Any qualified parent or guardian may file or declare as a candidate for election to an SCC. A parent or guardian is considered "qualified" for membership on an SCC, if, at any time during his or her term of office, he or she has a student attending, or will have a student enrolled at the school.

Each parent or guardian member must be selected by the vote of a majority of parents or guardians of students in the school who participate in a publicized election. Results of the election must be made available to members of the public upon request and will be maintained for three years.

If, after an election, a parent or guardian position on the SCC remains unfilled, the other parent or guardian members of the council should appoint a qualified parent or guardian to fill the position. If, after an election, a school employee position on the SCC remains unfilled, the other school employee members of the council should appoint a qualified employee to fill the position. Following the election, if there are more parent members who are educators in the district than parents who are not educators in the district elected to the council, the parents on the council shall appoint additional parent members until the number of parent members who are not educators exceeds the number of parent educators in the district. Additionally, council

membership must include two or more parents or guardians than the number of school employees. The chair of the SCC must, through the [Superintendent](#)'s office, notify the local school board of each appointment made.

Councils shall have a chair and vice-chair, the chair must be a parent and the vice-chair may be a parent or employee member, excluding the principal.

Following the election, principals shall enter and electronically sign on the School LAND Trust website a Principal's Assurance Form that assures the membership of the council conforms to the law; the members were elected according to the requirements in law and board rule; and when appointments need to be made, parent or employee members on the council fill the vacant positions according to the law. Legislative audits may be conducted to review election procedures. School LAND Trust funding may be reduced or eliminated if a legislative audit finds improper elections or membership nonconformity to the law.

Operating Procedures

The council meets monthly, or more often if business dictates. Meetings are conducted using informal [parliamentary procedures](#). Meeting agendas are set by the SCC chair in consultation with the [SIC](#) chair and the principal or designee. An [open agenda](#) is used so that individual members of the council may introduce items of business or points of view to be considered. Council members shall not be discouraged or prohibited from discussing any issue or concern not prohibited by law. Before a decisions are made, a quorum of one-half of the membership must be present.

Minutes of the council proceedings must be distributed to members of the council within ten (10) days of each meeting, and approved by vote of the council members at a subsequent meeting. Once minutes have been approved by vote of the members, they become the official record of the proceedings. Official minutes must be posted on the school website as soon as possible after they have been approved.

Salt Lake City School District recommends that audio recordings of council meetings be made and kept at the school for one year. Posting of audio recordings on the school's website is optional.

One week prior to each council meeting, the SCC Chair, assisted by the school principal, must post the following on the school website and provide this information through at least one other direct delivery method:

- notice of the upcoming meeting, including the date, time, and place;
- agenda for the meeting; and
- official minutes (approved by the committee via email or by some other agreed-upon procedure) or unofficial minutes of the previous meeting (labeled "draft," or "awaiting formal approval").

Annually, on or before October 20, state law requires the following to be completed:

- the council must be in place, including elections and subsequent appointments
- The Membership Form, Principal Assurance Form and Final Report of the prior year's School LAND Trust plan implementation must be submitted on the LAND Trust website
- Fall notification requirements that include:
 - o Names and contact information (direct email, phone or both) for each member of the council
 - o Proposed school community council meeting schedule for the year

- A summary of the implementation of the School LAND Trust Program Plan completed in the prior school year. This includes accomplishments and how the money was spent.

These reports may be communicated in the following ways:

- post on the school website; and
- using one or a combination of the following methods of delivery to ensure that all parents or guardians receive the information:
 - send to each student's household by mail, voicemail, or e-mail; and/or
 - give to parents and guardians, in written form, during annual registration or with report cards.
- School LAND Trust funds are not to be used to provide parent notifications

Principals shall ensure that school websites fully communicate the opportunities provided to parents to serve on the school community council and how parents can directly influence the expenditure of the School LAND Trust Program funds.

The council may determine additional operating procedures through mutual agreement.

The chair and/or chair elect (a parent or guardian) and vice-chair (a parent or a school employee, excluding the principal) are elected by the council in the spring to serve beginning July 1, though state law allows some flexibility in the beginning date of council and leadership terms, as described above under Composition and Selection of Members.

Councils may determine procedures for replacing SCC members should they fail to meet attendance requirements as set by the council.

An SCC may create subcommittees or task forces to advise or make recommendations to the council or to develop all or part of a plan. Individuals who are not council members, including parents, school employees, or other [community members](#), may serve on a subcommittee or task force. Any plan or part of a plan developed by a subcommittee or task force is subject to the approval of the SCC.

A group of parents who feel that they are not adequately represented on the SCC may petition the council for an additional representative position. The SCC can accept or reject the petition. Petitioners may appeal the SCC decision to the District's Shared Governance Committee.

Decision-making

Under shared governance, groups strive for consensus.

Consensus is a collective opinion arrived at by a group whose members have listened carefully, communicated openly, been able to state their opposition to other members' views, and sought and considered alternatives in a constructive problem-solving manner. All members, because they have had the opportunity to influence the decision, should understand and support it.

Consensus evolves from open discussions, until participants feel satisfied with their decision. Reaching consensus should be the goal in all councils and committees of the district.

Consensus does not mean one hundred percent agreement. Seldom will everyone be wholly satisfied with any decision. Consensus does require that all participants be able to accept and support a decision.

Consensus takes time, and decisions should not be rushed. When the process is effectively implemented, it provides the opportunity for compromise and precludes the unilateral, capricious, or arbitrary exercise of power.

When it is clear a decision cannot be reached through consensus, the law requires a [simple majority](#) vote using parliamentary procedures that must be recorded.

PROCEDURAL GUIDELINES

The following guidelines have been modified from those that have proven helpful to school boards and may be helpful to School Community Councils.

1. A council should agree on and adopt an agenda format that it will follow at regular meetings.
2. Action items on the agenda require:
 - a motion by a council member;
 - a second to the motion;
 - a discussion of the motion by the school community council;
 - a vote by the school community council.
2. Each motion should be limited to one idea or issue.
3. No new motion may be made while another is being discussed.
4. A motion may be amended and votes on the amendments must be taken before acting on the original motion.
5. Before a vote on a main motion is taken, business can be interrupted by a motion:
 - to table the main motion;
 - to postpone action;
 - to refer the motion to a committee;
 - to withdraw it from consideration;
 - to adjourn the meeting.

The subsidiary motions must be disposed of prior to action on the main motion.

6. Debate can be closed formally with a motion to move the question and a two-thirds affirmative vote.
7. When the council chair senses the discussion has ended, a vote may be taken without a formal motion to close debate unless a member objects.
8. Some motions are not debatable, such as a motion to adjourn or to appeal a decision to the chair. See the simplified chart of “Parliamentary Motions”.
9. A community council member, but no one else, may question a council procedure by rising to a point of order at any time. After the point is stated, the chair issues a ruling that may be appealed to a vote of the full council. Council policy should specify the number of votes required to over-rule the chair or to suspend a rule.
10. Before a motion is voted upon, it should be read aloud by the secretary.
11. The chair, by virtue of membership on the council, is expected to vote on each issue before the council.
12. The chair should indicate before each vote whether a simple or special majority is required.
13. The chair should keep readily at hand a reference guide, such as the chart of parliamentary motions.

PARLIMENTARY MOTIONS

Parliamentary Inquiry	Parliamentary questions	No	No	None

- A tie vote is a lost vote.
- A main motion may be amended.
- Nominations can be closed by saying, "I move to close nominations."
- Most motions are main motions.
- A point of order is offered when there is some question if procedure had been followed correctly.
- To stop debate or discussion on a motion and force the vote a member would say, "I move the previous question." This requires a second and a 2/3 vote.
- Hasty action may be corrected by use of the motion to reconsider. This motion may be made only by one who voted on the prevailing side.
- A person who made the motion may withdraw the same motion.

SCC CHAIRPERSON GUIDE

Duties of the Chairperson

A [School Community Council \(SCC\)](#) chairperson provides the Council with leadership. S/he should prepare for meetings in advance. The chair should see the big picture and be open to issues brought for discussion. The chair should create a safe environment for all participants and be an impartial facilitator. The chair's responsibility is to make the meeting productive by keeping the group and meetings on task.

The chairperson enables members of the council to more fully utilize their potential and talents in order to help the SCC identify and achieve its vision and goals. The chair should:

- Conduct the meeting and arrange for audio recording.
- Communicate the purpose of the council to the council members.
- Establish a climate of openness, trust and respect.
- Set the agenda with the principal, [SIC](#) chair.
- Focus on issues, not positions.
- Encourage dialogue and participation by all council members.
- Lead the discussion regardless who presents the material.
- Set "ground rules" with council members at the first meeting.

- Access additional resources, if necessary, to assist with information gathering (i.e., district office personnel and professional groups, or [community members](#)).

Setting the Agenda

The agenda is a powerful meeting tool. It ensures that everyone comes to the meeting prepared. It gives clear expectations for the meeting. The agenda is set using suggestions from the SCC members and is finalized by the SCC chair, principal, and the SIC chair. The agenda should include:

- a welcome and introduction of guests;
- approval of minutes from previous meeting;
- principal's report;
- member reports;
- items for discussion;
- items needing action;
- assignments (when necessary);
- a summary of the meeting; and
- setting next "tentative" agenda.

Keeping Minutes

Minutes are a record of what happened during a meeting. The minutes are a summary of what actually occurred and can be a valuable tool for productive meetings. The fewer the words the better. The minutes should state the important facts briefly but thoroughly. Minutes should be written as soon as possible and checked by the chairperson. They should then be distributed within 10 days to all council members and to everyone who will be expected to act on them. Minutes should include:

- a list of members and others present;
- decisions made by parliamentary procedures;
- assignments given; and
- date and tentative agenda for the next meeting.

Effective Decision Making

The benefits of group decision-making are better thinking, better buy-in, and better decisions all around. The success of group decision-making requires the group to take advantage of the full range of experience and skills that reside in its membership. In a group participatory process, the overall expectations are that all members will accept and take responsibility for making their meetings work, and that their decisions will be supported and implemented.

In group decision-making, full participation, mutual understanding, inclusive solutions, and shared responsibilities are core values. Participants are problem solvers. A participatory process encourages group discussions about issues. It replaces positions and demands with clarification and understanding of individual interests, and it makes creative solutions possible. The group decision-making process should include:

- group participation and discussion;
- sharing of information;

- decisions made by consensus whenever possible, or by simple majority vote using parliamentary procedures; and
- follow-up to ensure implementation of decisions.

Decisions take time. It is highly recommended that an issue be introduced and thoroughly discussed at a meeting. If everyone feels comfortable about the recommendation, then consensus occurs. If consensus does not happen, the recommendation should be carried over to a future meeting. Sometimes members need time to think about the recommendation or to find out how constituents feel. Then a decision can be made. When discussions and time for thought is allowed, the buy-in for the final decision is greater. When the buy-in occurs, there is greater support for the decision.

Consensus

Consensus is one of the most important tools in a group participatory process. In group decision-making, reaching consensus means that all members of the group can agree on one solution. After thorough discussion of all generated options and everyone has had an opportunity to be heard, the members should agree on one option they will support.

A good consensus decision is where:

- everyone has an active part;
- all aspects of the problem have been explored;
- all views have been discussed; and
- everyone works for its success.

When it is clear a decision cannot be reached through consensus, the law requires a simple majority vote using parliamentary procedures that must be recorded

Responsibilities of the SCC

A School Community Council is established in each school and is comprised of employees and patrons of that school. There are many responsibilities and decisions allocated to the SCC by the Board of Education. State law requires the following decisions be made by the SCC:

- evaluation of UCAS data to create a [School Improvement Plan](#);
- development of a [LAND Trust](#) plan with the School Improvement Plan;
- development of a [Reading Achievement Plan](#) (Grades K-3);
- assistance in development and implementation of [staff](#) development; and
- assistance in implementation of educational technology filters and safe technology use instruction for students and parents.

Other responsibilities are allocated to SCCs by the Board of Education and are listed in this document.

SCHOOL IMPROVEMENT COUNCILS

A [School Improvement Council \(SIC\)](#) is established in each school, with membership representing [faculty](#), [staff](#), and administrators at that school.

An SIC exists to provide an orderly and professional means of improving educational programs and conditions within a school through the [shared governance](#) process.

Operating Conditions

School improvement councils operate within a [parity](#) relationship between two parties: (1) the [administration](#), which always includes the principal and may include assistant principals or others acting in an administrative role, and (2) faculty and staff together. In decisions delegated to the SIC, neither party to this relationship may impose a decision on the other. Nor may either party advocate action that violates board policy and/or negotiated agreements.

An SIC makes recommendations to the faculty/staff for discussion and approval through [consensus](#)—or by [ratification](#) when consensus cannot be reached—then represents its decisions to the [School Community Council \(SCC\)](#).

An SIC is a forum in which the concerns of any school community member or school employee may be raised and addressed. SIC members must strive to act in accordance with shared governance principles, specifically:

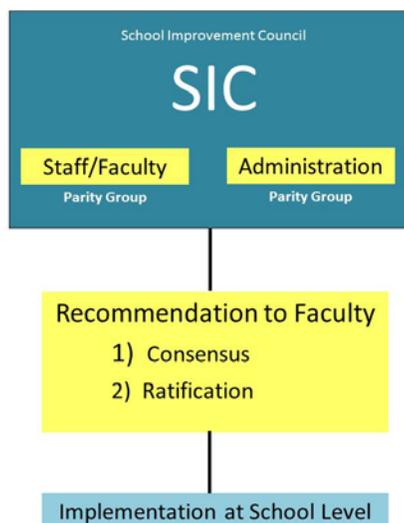

- Consider all issues on the basis of what is in the best interest of students.
- Consult with constituencies to get input and approval on issues. All employees have an obligation to fairly reflect the ideas of those they represent.
- Support the decisions of the board of education, [superintendent](#) of schools, school principal and administrative team, and SCC and work to implement those decisions.

Decisions and Responsibilities

Responsibilities allocated to the SIC include the following:

- Determine and support the [site](#) goals and objectives in cooperation with administrators, faculty, staff, and SCC, in addition to and in alignment with board/district goals.
- Recommend site-based professional development plans for consideration by the SCC, administration, and the faculty.
- Recommend the use of site-based professional development days with faculty approval and in cooperation with the SCC.
- Determine the school day with input from the SCC and subject to the superintendent's approval and within parameters outlined by the board of education.
- Identify unassigned teachers and declare vacancies at the site as outlined in the [Written Agreement](#).
- Schedule with the SCC appropriate times and days for parent/teacher conferences and/or back-to-school-nights.

ALLOCATION OF DECISIONS AND RESPONSIBILITIES

The following section offers examples of the kinds of decisions allocated to various groups and individuals involved in [shared governance](#). Decisions listed here are meant to be representative, not all-inclusive.

Board/District

The state delegates much of its authority over education to the local boards of education, which are elected by and responsible to their district's citizens. The Salt Lake City Board of Education further delegates decisions to individual schools with the understanding that it retains authority to govern the district and monitor all [site-based decisions](#). Decisions retained by the board include, but are not limited to, the following:

Any employee(s) and/or patron(s) may request assistance by contacting any member of the District Shared Governance Committee, including the superintendent, in writing. The superintendent must be informed of any such request and must convene an [ad hoc](#) committee to meet with the person(s) requesting assistance to accomplish the following:

School Administrators

School administrators are essential to successful site-based decision-making. They serve as instructional leaders in the school and are responsible for its day-to-day operations. They routinely make decisions according to district and school policies and guidelines. In shared governance councils, administrators must provide sufficient information so that all parties may contribute thoughtfully in the decision-making process. School administrators must ensure that they communicate with their SCCs about any issues that involve long term contractual obligations for the school, such as the proposed installation of a cell phone tower, new construction proposals, potential lease opportunities with outside third parties, etc.

Many decisions are the sole responsibility of the school administrator; however, decisions involving the formulation of school policy should be made in consultation with the teachers, [staff](#), SIC, and SCC. Decisions and responsibilities allocated to the administrators include, but are not limited to, the following:

- Determine and support site-specific goals and objectives in cooperation with [faculty](#), staff, SIC, and SCC, in addition to and in alignment with board/district goals.

As instructional leaders, teachers are responsible for developing and implementing programs. They routinely make decisions that affect student learning, the school district's primary mission. Decisions and responsibilities allocated to teachers include, but are not limited to, the following:

- Determine and support site-based goals and objectives in cooperation with school administrators, other faculty, staff, SIC, and SCC, in addition to and in alignment with the board/district goals.
- Account for student achievement in the classroom.

- Select or develop assessment tools in addition to those mandated by the district and state.
- Inform parents/guardians of the progress achieved by their students.
- Volunteer to serve on committees as needed.
- Provide input and review expenditures of school budgets.

Classified Personnel

The unique expertise of [classified personnel](#) plays an integral role in making Salt Lake City School District effective in its core mission. All district operations should take place in an atmosphere of shared governance.

For all employees, the shared governance framework means that, whenever feasible, the interests of persons affected by a decision should be represented prior to that decision being made. Committees, councils, and other representative advisory groups should strive to reach decisions through [consensus](#).

Decisions and responsibilities allocated to classified employees include, but are not limited to, the following:

- Determine and support site goals and objectives in cooperation with administrators, faculty, staff, SIC, and the SCC, in addition to and in alignment with board/district goals.

- Provide input to and review expenditures of the school budgets.

DISTRICT DEPARTMENTS

District committees, councils, and [departments](#) also operate under [shared governance](#) guidelines.

When people believe that what they think, say, and do will make a difference, they act accordingly. The attitude of shared governance can improve employee performance and success in any job.

Councils and committees may be composed of teachers, administrators, classified and other support personnel, parents, and [community members](#), depending on the decisions and services required.

Membership on district committees and councils should reflect the demographics of the district, as well as the interests of all parties affected by their decisions. These district shared governance councils and committees can appeal to the [superintendent](#) and board of education, if necessary.

All departments within the organizational structure of the Salt Lake City School District should strive to make and communicate decisions with the principles of shared governance in mind.

Managers—including department heads, principals, and the superintendent—play a critical role. They must lead by example, seeking input and facilitating collaborative decision-making. Each individual employee is responsible for bringing ideas to the table and for showing respect for the ideas of others.

[Administrative Procedures for Board Policy G18 Form G-18, Complaint and Resolution Request](#)

THE POLICY

The Salt Lake City School District Board of Education develops and supports processes to resolve complaints and disagreements among stakeholders in a professional and efficient manner.

The purpose of this policy is to provide a complaint resolution process to be used when an individual's concerns have not been resolved through an informal process, and when there is no other specified resolution process. This process is not intended for any type of grievance, complaint, or appeal that is covered by a separate board policy.

When appropriate, the board encourages an individual to initially discuss his or her concerns in an informal conference with the appropriate teacher, principal, or staff member. Concerns should be expressed as soon as possible to allow timely action, avoid complications or misunderstandings, and involve the minimum number of people necessary to reach a satisfactory resolution.

If an informal conference fails to produce a satisfactory resolution, an individual may initiate this complaint resolution process by timely filing a written "Complaint and Resolution Request" form.

The process and form described in this policy and associated administrative procedures do not create any new or additional rights beyond those granted by law or board policy.
