7. Your class list should come up along with 16 columns of drop-down items.

Student ID	Local Student ID	First Name	Last Name	Reading on Grade Level	Receiving Intervention - Reading	Receiving Intervention - Writing	Receiving Intervention - ELA (excluding reading)	Focus ELA

8. When finished entering data, click Save on the lower left.

Entering SB150 and Reading Intervention Data

- If a student is **At or Above** grade level (green) on DIBELS and requires no additional interventions, mark yes in the *Reading on Grade Level* column and do not mark anything else for the student.
- If the student is **Below** grade level (yellow) on DIBELS, but the teacher knows this student is on grade level, mark yes in the *Reading on Grade Level* column and do not mark anything else for the student.
- If the student is **Below** grade level (yellow) on DIBELS, and the teacher agrees that this student is below grade level, mark no in the *Reading on Grade Level* column and fill out the appropriate interventions for the student.
- If the student is **Well Below** grade level (red) on DIBELS, mark no in the *Reading on Grade Level* column and fill out the appropriate interventions for the student.

Entering Math and/or Science Intervention Data

- It is possible that a student may not receive intervention in reading, but may receive it in math, science, or both.
- It is also possible that a student may receive intervention in reading and math only, reading and science only, or in all three content areas.
- If a student receives math and/or science intervention, please mark yes in the appropriate *Receiving Intervention* column (MA, SC, or both). Select the math or science focus and fill out the appropriate interventions for the student.

Receiving Intervention - MA	Focus MA	Receiving Intervention - SC (grades 4 and up)	Focus SC
